Art Unit: 2644

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 1 to 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Kunimoto.

Kunimoto discloses cabinet for an electronic device equipped with a loudspeaker for audio reproduction (fig 1) characterized in that the cabinet comprises a main cabinet for housing electrical and mechanical components of the electronic device (2) and further comprises a cabinet (3 and 4) for the loudspeaker being separate from main cabinet and connected to the outside of the main cabinet in a nondetachable manner; a vibration damping means is arranged between the main cabinet and the loudspeaker cabinet (9); characterized in that inside the loudspeaker cabinet electronic circuitry is arranged (inherent that electronic circuitry (wires) is arranged inside the speaker cabinet); the main cabinet is provided with urging means pressing the loudspeaker cabinet against the main cabinet (tip end of main cabinet (2) would be urging means since it is pressing the loudspeaker cabinet (3) against the main cabinet; see fig. 2).

3. This is in response to the applicant's remark which was received on June 5, 2003.

Art Unit: 2644

On page 3, lines 3 to 8, the applicant has argued that “Kunimoto does not disclose a cabinet having a main cabinet and a loudspeaker cabinet, and ‘said loudspeaker cabinet being separate from said main cabinet and connected to the outside of the main cabinet in a non-detachable manner”. The applicant’s argument is not persuasive because a cabinet 2 of Kunimoto discloses a main cabinet and cabinet 3 as a speaker cabinet.

On page 3, lines 9 to 22, the applicant has argued that “element 3 is part of cabinet 2, and both the woofer 4 and the tweeter 5 are disposed inside that casing (relied upon as the main cabinet”. The applicant’s argument is not persuasive because as disclosed in figures 2 and 5, panel 3 and sound conductor 8 makes a cabinet (cabinet is defined as “a small room providing seclusion” Webster’s Ninth New Collegiate Dictionary”).

The Examiner maintains the rejection as set forth above.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 2644

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
